GUIDE TO BUYING STAIRTREADS:

- 1 Measure the width of the stair from left to right. Wall to wall. Do not leave any blank space at the edges of the Stairtread.
- 2 Check the nose of the stair. Is it a square nose (metal, concrete and some wood steps) or a round nose (old fashioned wood stairs, bull nose)? This is very important, as 1 type of tread will not fit on the other. The use of the wrong tread will lead to installation failure and a dangerous installation!
- 3 How many pieces do you need? Kruger™ diamond treads are packed 8 to the carton, Brasilia™ are packed 6 to the carton, Ardeche™ are packed 6 to the carton. Less than full cartons are available subject to a \$15.00 split carton fee.
- 4 What color do you need?
- 5 If there is any gap between the nose of the step and the tread this must be filled in w/ Allstate nose epoxy. For full installation instructions please go to www.allstaterubber.com
- 6 Round nose treads and special order items are not returnable for any reason.
- 7 Please fax your order in to: 1 718 849 1662. We will then fax you back a proforma invoice and a credit card form. Please fill out the cc form and fax back to us.
- 8 All specifications and terms are subject to change without notice.
- 9 Any questions, call 1 718 526 7890 or go to allstaterubber.com

The above diagram is for the Brasilia™ Stairtread only.
