

QUARTZ TILE/MQT: Highlights

70% NATURAL, 100% BEAUTIFUL

Allstate Molded Quartz Tile (MQT) *IS THE ORIGINAL QUARTZ TILE*. Since 1985 Allstate has supplied MQT to thousands of clients throughout the USA & Canada.

- **COMPOSITION:** 70% quartz, 15% non-phthalate virgin vinyl, and bio-based plasticizers.
- **DURABILITY:** Rates 7 on the Mohs hardness scale (making it highly resistant to chipping, breaking, and heavy forklift/pallet-jack traffic). *With a static load limit of 3000 psi, MQT won't crack like other products and will withstand heavy traffic.*
- **MAINTENANCE:** The molding process produces a tighter grain structure, and together with the homogeneous construction and PUR finish, creates a nonporous surface. MQT is occupancy ready and does not require waxing or sealers.
- **SUSTAINABILITY:**
 - 100% Recyclable
 - 70% Natural
 - LEED® Scorecard Compliant
 - FloorScore® Certified
 - Low in VOC's

MQT Excels in:
